

We find solutions when others have given up.

PRODUCT LINES

Specialty Pumps

API 685, API 674, API 675, Regenerative Turbine, Low NPSHr, Canned Motor, Magnetic Drive, Metering, Positive Displacement, Diaphragm, Peristaltic, Low Flow - High Head, High Temperature, High Viscosity, Caustic or Acid

Produced Water Treatment & Filtration

Municipal Drinking Water, Industrial Waste Water Treatment, Cooling Tower Filtration, Desalination Pre-filtration (coated option), Surface Water, Treatment Rule (SWTR) LT2, Reverse Osmosis Pre-filtration, Ground Water Remediation Ground Water Under Direct Influence (GUDI)

Special Purpose Valves

Automatic Recirculating valves, Back pressure, bellows seal, Control, Safety, Pressure Regulating, Pressure Reducing, Flow Regulating. For Steam, Gases, Hot water, Thermal Fluids, Hot Oil, and Refrigerants.

Replacement Parts

OEM - Exclusive representatives for (list product lines) and Aftermarket parts for self priming centrifugal pumps and progressive cavity pumps for all major manufacturers.
