

The Everywhere Pump - DRILL DRIVEN

ZUWA ... Tools not Toys

Drill Powered Pump with Adapter

small, lightweight, convenient – always ready

Types

UNISTAR 2001-A / 2001-B / 2001-C

Universal pump with aluminium body (AlMgSi1) for clear or grey water without abrasives.

COMBISTAR 2001-A / 2001-B

Pump for abrasive or slightly corroding liquids. Housing of stainless steel (AISI 316Ti).

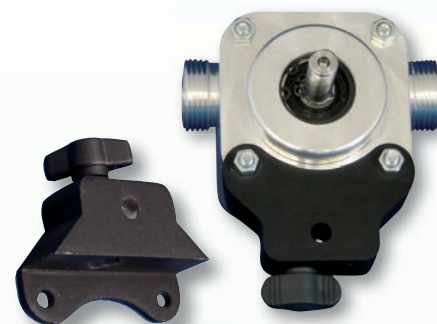

NIROSTAR 2001-A / 2001-B

Top quality stainless steel pump (AISI 316Ti) with a wide variety of applications, especially corrosive liquids.

Features

- ▶ ZUWA makes efficient pump power available everywhere. All ZUWA pumps of the 2001 series can be powered with any regular electric or cordless drill and screwdriver, at any time, at any place.
- ▶ Connect the shaft of the pump with the chuck. The depth stop of the drill fully stabilises the system and ready you are. Contrary to similar pumps on the market this pump is truly self priming. It has a metal body instead of plastic and a shaft with top quality ball bearing which guarantees a long lifetime.
- ▶ All ZUWA impeller pumps are dry self priming from a depth of 3 metres, no pre filling required. The flexible impeller easily copes with solids in stained liquids.

UNISTAR 2001-A with drill adapter

Technical details

Drill Driven Pump	Typ A	Typ B	Typ C
Flow rate max.	30 l/min	60 l/min	90 l/min
Working pressure max.	4 bar	4 bar	4 bar
